3. ☐ At least one amendment has been filed subsequent to the final rejection, and the brief does not contain a statement of the status of each such amendment (37 CFR 41.37(c)(1)(iv)).
4. ☒ (a) The brief does not contain a concise explanation of the subject matter defined in each of the independent claims involved in the appeal, referring to the specification by page and line number and to the drawings, if any, by reference characters; and/or (b) the brief fails to: (1) identify, for each independent claim involved in the appeal and for each dependent claim argued separately, every means plus function and step plus function under 35 U.S.C. 112, sixth paragraph, and/or (2) set forth the structure, material, or acts described in the specification as corresponding to each claimed function with reference to the specification by page and line number, and to the drawings, if any, by reference characters (37 CFR 41.37(c)(1)(v)).
5. ☐ The brief does not contain a concise statement of each ground of rejection presented for review (37 CFR 41.37(c)(1)(vi)).

Continuation of 10. Other (including any explanation in support of the above items): The Summary of the Claimed Subject Matter should mention all of the appealed independent claims and the limitations of the independent claims need to be mapped to the specification by paragraph number, page, and line number or drawing reference. For means plus function language in the independent claims or separately argued dependent claims, a description of the corresponding structure in the specification must be included with paragraph number, page and line number or drawing reference characters.

Grouping of Claims should appear under the Arguments heading.

With regards to the Appellant's newly submitted secondary considerations in Appendix F and Appendix G, 37 CFR 41.37(c)(1) states,

"Any appendix containing copies of any evidence submitted pursuant to 1.130, 1.3.1 or 1.1.32 of this title or of any other evidence entered by the examiner and relied upon by appellant in the appeal, along with a statement setting forth where in the record that evidence was entered in the record by the examiner. Reference to un-entered evidence is not permitted in the brief. See 41.33 for treatment of evidence submitted after appeal." (emphasis added)

Further, 37 CFR 41. 337(c)(2) states,

"A brief shall not include any new or non-admitted amendment, or any new or non-admitted affidavit or other evidence." (emphasis added)

Appellant's attention is directed to 37 CFR 41.33 for guidance as to when evidence can be entered after the filling of a notice of appeal.

If Appellant has previously timely submitted the evidence referred to above, Appellant should provide a copy in the evidence appendix and a statement of when the evidence was entered by the examiner. If the evidence referred to above, has not been previously entered Appellant should consult 37 CFR 41.33 and/or remove the reference to un-entered evidence for the appeal brief..
